PROFESSIONAL SUMMARY

Software Engineering undergraduate (HNDIT / NVQ Level 6, SLIATE) with over 1 year of hands-on production experience at Dearo Investment Limited / Dearo IT Solutions. Started as a Software Engineer Intern and now a Software Project Contributor on a full core banking system. Delivered corporate websites, a venture capital website, a marine consultation website, a doctor application with a digital prescription feature, and multiple Flutter mobile applications. Strong in Next.js, React, Vue.js, Flutter, Laravel, PHP, and MySQL, with solid experience in REST API integration, database management, testing, and deployment support. Seeking a Software Engineer, Full Stack Developer, or Frontend Developer role.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, Vue.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Framer Motion
Mobile: Flutter, Dart, Android Application Development, Responsive Mobile UI
Backend & APIs: PHP, Laravel, CodeIgniter, Node.js, REST API Development and Integration
Databases: MySQL, Firebase, phpMyAdmin
Design & Tools: Figma, Canva, Git, GitHub, Visual Studio Code, NetBeans
Practices: Agile Collaboration, Software Testing, Deployment Support, Responsive Design, SEO-Friendly Development

PROFESSIONAL EXPERIENCE

Dearo Investment Limited / Dearo IT Solutions | September 2025 – Present

Software Project Contributor – Core Banking System | June 2026 – Present
- Build frontend modules with Vue.js and backend services with Laravel for a full core banking system.
- Manage and structure data using MySQL and phpMyAdmin.
- Implement responsive UIs, form workflows, and API communication between frontend and backend.
- Test modules and contribute to continuous system improvements.

Software Engineer Intern | September 2025 – September 2026
- Delivered web and mobile projects for Dearo Investment Limited and its business divisions, from requirement gathering to deployment support.
- Developed responsive, SEO-friendly websites using Next.js, React, TypeScript, Tailwind CSS, and Bootstrap.
- Built cross-platform Flutter applications integrated with PHP/MySQL REST APIs.
- Developed a doctor application and companion website with a digital prescription feature.
- Collaborated with the team to gather requirements, test features, resolve issues, and release to production, including Google Play Store publication support.

KEY PROJECTS

Core Banking System | Dearo IT Solutions | Vue.js, Laravel, MySQL, REST APIs
- Contributed frontend modules, backend integration, database handling, form workflows, and testing for an internal core banking platform.

Doctor Application and Website (Prescription System) | Dearo | Flutter, Web
- Built a Flutter mobile application for doctors and a companion website.
- Implemented a prescription feature allowing doctors to create and issue prescriptions digitally.

Consultation Marine Website | Next.js
- Developed a professional, responsive website for a marine consultation business with clear service pages and modern layouts.

Development Venture Capital Corporation Limited (DVCCL) Website | dvccorporation.lk | Next.js, TypeScript, Tailwind CSS, Framer Motion
- Built the corporate website for a Sri Lankan venture capital firm with a polished, animated, fully responsive UI.

Dearo Investment Corporate Website | dearoinvestment.com | Next.js, Tailwind CSS
- Developed the official corporate website with responsive components, SEO-friendly routing, and an optimized page structure.

Dearo Venture Capital Website | dearoventurecapital.com | Next.js, Bootstrap
- Built a multi-page website (About, Sectors, Community & Environment, Contact) with responsive layouts and clear navigation.

Secretary and Audit Services Website | Next.js, Tailwind CSS
- Developed a clean, professional service website suited to a financial services division.

Dearo Digital Mobile Application | Flutter, PHP, REST APIs, MySQL
- Built Flutter interfaces, implemented PHP backend APIs, integrated MySQL, and supported Google Play Store publication.

Dearo Education Mobile Application | Flutter, REST APIs, MySQL
- Developed a digital learning app with responsive Flutter UI connected to APIs and MySQL storage.

ACADEMIC AND PERSONAL PROJECTS

Grocery Item Ordering System | Node.js, React, Firebase
- Full-stack app with RESTful APIs, user authentication, order tracking, and Firebase storage.

Movie Website | React, Tailwind CSS, External APIs
- Responsive site with real-time movie data, search, category filtering, and detail pages.

Other practice projects: CRUD apps with PHP/CodeIgniter and MySQL, secure PHP image upload system, PHP login system with session management and password hashing, Grocery Store UI design in Figma. Source code: github.com/denuwansandeepa
